PRESENTATION

About Us

Our story

“*Engineered for the Sky. Made in Germany!*”

ACM GmbH, based in Memmingen, Germany, is an EASA 21J DOA, 21G manufacturer as well as 145 maintenance organization and thus the ideal partner of the aviation industry when it comes to design, manufacturing, maintenance and overhaul of aircraft interior furnishings.

From the design through production to maintenance: ACM provides the complete solution and customer support at any stage.

The blend of our certificates creates a unique portfolio of products and services that we improve and expand continuously to be able to meet customer's requirements from one single source. For instance, we are

the single non-OEM in the EU that has the EASA approval to overhaul and exchange the webbing on lap belts and restraint systems.

ACM unites best German engineers with their special commitment to quality and practicability in order to create both cost-effective as well as esthetic design that meets all demanding requirements of the EASA.

Roger Hohl

Managing Director

Arash Noshari

Managing Director

Dear valued customer

Since our beginnings in the 1960's our main strategy in ACM has been to offer the highest quality, precision and innovation. Together with our highly motivated team we are not only working with great passion on the products of our customers but we also find answers to the questions of tomorrow too, day by day. Therefore, it is not surprising that our motto is: "Engineered for the Sky – Made in Germany"

Thank you for being interested in our company and taking the time to read this presentation. We wholeheartedly welcome any constructive feedback you may have.

Key Facts

It is all about data

Seat Covers & Cushions

We offer a wide range of high quality seat covers & seat cushions made out of different material and layer components. All our seat covers are customized and accordance to aviation certification.

- Graphite and memory seat cushions
- Backrest and headrest cushions
- EC, BC, FC seat covers
- Laminated seat covers
- Cabin attendant & pilot seat covers

Aviation Leather

ACM is the first supplier within the aviation of manufacturing leather in combination with the sewing work. This allows us to minimize the costs of total parts. We offer a high quality leather in different colors and patterns for:

- Passenger Seat Covers
- Cabin Attendant Seat Covers
- Curtains
- Front Row Lit. Pockets
- Shell Lining of VIP AC

Curtain & Carpets

ACM is setting new standards in creating ambiance and providing the desired comfort. With our ready made carpets and curtains we offer premium quality products in harmonized designs and colors, all from one single source.

- Ready made carpets with different pattern e.g. ultra light carpets cut and whipped
- Pleated curtains with various hooks
- Class dividers
- Acoustic Curtains

Lining & Composite Parts

Our composite structures with unique technology allow the minimization of the amount of used material to reach minimal weight and minimal material costs.

- Dado Panel
- Side Ledges
- PCU Panel
- Window Liner
- Head Liner
- Spacer
- Partition
- Hatrack Door
- Literature Pockets for Partition

Crew Compartments

For Flight and Cabin Crews

Single Supplier

Exclusive soft furnishing for all A350 and A380 flight and crew rest compartments.

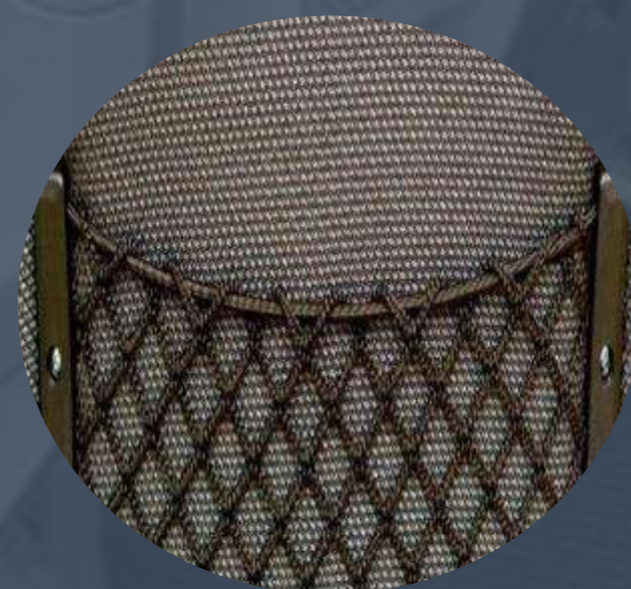

- Wall Linings
- Carpets and Curtains
